Something about my high school

My high school is The Sixth General Education High School named after King Zygmunt August in Bialystok. It is at 8 Warszawska Street. Students and teachers call the school colloquial „VI LO”. The sixth high school is in the top five of the best high schools in Bialystok.

History of my school

The history of my high school dates back to 1777, when the school originally a junior high school. In 1915 the school was named by Zygmunt August. Officially, in 1972 the building turned from the junior high school into sixth general secondary school. The first VI LO headmasters were Anna Duda and Tadeusz Dziubiński.

School's building

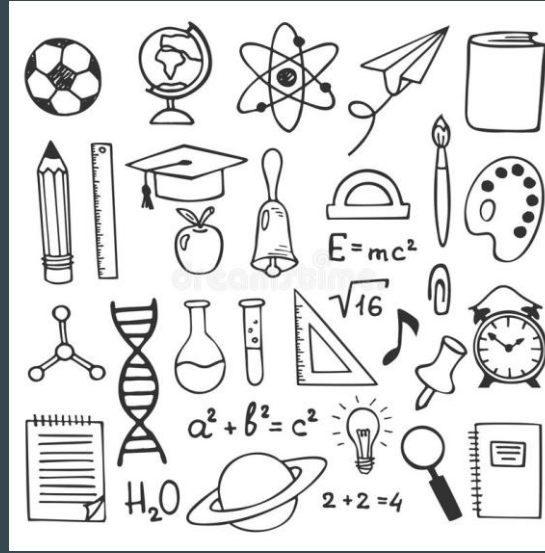

The building of my high school is a long-standing palace. I really like its appearance. The look inside the school is also in an older style, for example, there are pictures on the walls and the floor is tiled in some places. Many people laugh that it looks like a Polish Hogwarts. Several years of renovations are underway at the moment, but I hope that the appearance of the school will not change too much. School also have modern gym.

Class profiles

So, VI LO has now seven classes per year. From A to G. It has classes sorted by profile:

- mathematics and physics class
- mathematics and computer science class
- math-geographic or chemical class
- two classes of biological and chemical
- mathematical and architectural class
- humanities class

Current information

- Now the headmaster is Dariusz Naumowicz
- The second headmasters are Magdalena Dziejma and Marek Onoszko
- 769 students attends the school (2016)
- High school has its own anthem that begins with words: „ *Stare gimnazjum Zygmunta Augusta...*”
- Lessons end at 15:20 at the lastest
- At this moment, the chairman of the school is Jan Lejko and his deputy is Piotr Modzelewski

Extra-curricular activities for students

This school has a lot of extracurricular activities, from chemistry to volleyball training. Everyone will find something for themselves. It is fun to spend time with and a chance to meet new people from school. There is also volunteering at school.

VI LO's apiary

The high school originally has its own apiary of bees! It is dealt with by the teacher from polish language himself - Piotr Borucki.

Schools trips

The school organizes a lot of excursions! Recently, students have had the chance to travel to Scotland and London. It was an opportunity to learn about the culture of Great Britain and to improve the English language.

Erasmus+ project

My high school is attending Erasmus+ project. This year I had the opportunity to participate in it myself. Students from Italy and Greece came to us. I had a nice time and improved my English. It is an unforgettable experience to be involved in such a project. I hope next school year I will be also able to be in that kind of project.
