

**Take a moment to imagine your future-self 6 months from now, and it is the beginning of the next school year.**

Write a friendly letter to your current-self (kirjoita itsellesi) from the perspective of your future-self (six months in the future). What are you doing in your life six months from now? What goals have you accomplished? How did you achieve them? What life-advice would you give to your current-self?

Once you are done, fold up your letter into the envelope and seal it. Write your name on your envelope and decorate it however you wish. Once you are finished, place your envelope at the front of the class with me.
