

Day 1

The first day was the most exciting and terrifying. We just met our new families and knew nothing about mysterious Sardinia. At first all of the participants met in a municipality hall of Iglesias, then after a really nice welcoming we headed for sightseeing. We were walking through the beautiful historic town of Iglesias for hours and we were spellbound because of its breath taking views and lovely buildings. Then we went to school where we tried really delicious Italian dishes. In the afternoon we also visited the Mining Museum of Iglesias. All of us loved it! The underground caves were really interesting but sometimes rather scary. Almost every day we had a free evening which we spent together with our friends.

Day 2

Day 2 was our day! Together with Spanish team we prepared our traditional dishes. After cooking the whole morning and the coffee break we had an Italian language lesson. All of us loved it and picked up some simple expressions in this beautiful language. Then came something which every single one of us waited for – lunch! All of the meals prepared by pupils were really palatable and mouth-watering but lots of Italians preferred Polish cuisine. We were really proud.

Day 3

The third day was full of excitement. Around 8:45 we headed for beautiful attractions that Sardinia had to offer. We saw the Antas Temple, Water Windmill and "su mannau" cave. All of these places were really beautiful. The most breath taking thing of the day was the sea. We were really amazed by it. After lunch in local farmhouse we spent some time by the sea and then we visited the town of Buggeru. Views there were really stunning.

Day 4.

At the day 4 we learned how to make coffee. All of us one by one made and espresso and a cappuccino. We also had an Italian lesson on which we sang beautiful Italian songs and had lots of fun! Around 12 we tried some traditional dishes of Bulgaria, Germany and Portugal. All of them were delicious.

Day 5

The whole day 5 we spent in the capital city of Sardinia – Cagliari. The views, buildings and ambience were just amazing! We saw for example

the Elephant Tower, the Cathedral or The National Archeological Museum. After really palatable lunch we had some free time during which we relished the last hours together, walked around busy streets and bought souvenirs. At 8 pm there was a farewell dinner with all participants and teachers. The last night was crazy! Most of us partied the whole night in a local club enjoying the last minutes together.

The week in Sardinia passed very quickly. With sorrow and tears we leaved our new international friends and this beautiful historic town. We will never forget what we experienced there and we can't wait for new participants to come to Poland.
